// build · learn · secure · ship

BUILDING	CORE STACK	FOCUS	EDUCATION
Web + Android	React · Firebase · Groq/Gemini API	AI · Security · Data	MSc IT · In Progress

Motivated MSc IT student and BCA graduate with hands-on React JS internship experience and a portfolio of independently built web and Android applications. Experienced with REST APIs, Firebase and MySQL, Google Gemini and Groq API integrations, cryptographic security, offline storage, and data-driven application design.

02 / EXPERIENCE

React JS Intern — Praxware Technologies

Frontend Development · React JS · Bootstrap

- Developed and maintained React JS components for a production restaurant website, including an advanced table-booking feature.
- Collaborated on UI/UX improvements and feature enhancements for live web applications.
- Used state management, props and component lifecycle logic to build reusable, maintainable front-end components.
- Gained hands-on experience with version control and code review workflows.

03 / FEATURED BUILDS

AaiTravo ANDROID • GROQ API

AI-powered travel planning app that turns a rough trip idea into a practical day-by-day itinerary. Combines Groq-powered itinerary generation with places, photos, budget planning, packing and task checklists, live weather, and personal notes, letting users review and adjust the plan on the go.

SafeCipher ANDROID • AES • PBKDF2

Privacy-focused text encryption app for protecting sensitive messages before they are shared. Uses password-derived keys generated with PBKDF2 combined with AES encryption, salts and IV-based encoding, so only the correct password can recover the original message.

MedTempus ANDROID • GROQ • OFFLINE

AI-assisted medication reminder and adherence app built around reliable scheduling. Lets users manage reminders, log adherence, and get AI-assisted schedule or dosage-question support through the Groq API, while retaining full offline functionality for uninterrupted use.

Smart Expense ANDROID • FIREBASE

Personal finance app for tracking everyday income and expenses with real-time Firebase Firestore sync and secure Firebase Authentication. Provides a categorized dashboard with filters and summaries, plus one-tap PDF export for sharing and record-keeping.

TripSplitter ANDROID • ROOM DATABASE

Offline-first group expense splitter for trips and shared activities. Stores data locally with a Room database, automatically calculates who owes whom, and generates shareable summaries through Android's share intent for quick group settlement.

NearbyReminders ANDROID • GOOGLE MAPS

Location-aware reminder app that ties a reminder to a place instead of only a clock time. Integrates the Google Maps API so useful reminders trigger automatically around relevant locations, removing the need for repeated manual check-ins.

Attendance ANDROID • OFFLINE TRACKING

Attendance utility focused on structured, date-based record keeping for classrooms or groups. Built around morning and evening sessions with student details and status tracking, and generates clean PDF reports for quick review and sharing.

04 / ADDITIONAL PROJECTS

Library Management System — SQL system for inventory, members, issue/return tracking, search, filters and CRUD operations.

Student Result Management System — PHP/MySQL system with student, teacher and admin portals, online result viewing/printing and subject-wise progress tracking.

05 / TECHNICAL TOOLKIT

JavaScript (ES6+) · React JS · HTML5 · CSS3 · Bootstrap · PHP · SQL · Android · Firebase Firestore · Firebase Auth · Room Database · MySQL · REST APIs · Google Gemini API · Groq API · Google Maps API · Git · AES Encryption · PBKDF2 · Power BI · Data Analytics

06 / CERTIFICATIONS & JOB SIMULATIONS

Zetheta Algorithms Private Limited — *Front End Developer* — *Real Time Stock Screener* · Role: Front End Developer · 15 full-time days equivalent

Zetheta Algorithms Private Limited — *Autonomous Financial Research Agent* · Role: Agentic AI Role · 15 full-time days equivalent

Deloitte — *Cyber Job Simulation* · Cyber security

Tata — *Cybersecurity Analyst Job Simulation* · IAM fundamentals · strategy assessment · custom IAM solutions · platform integration

Mastercard — *Cybersecurity Job Simulation* · Phishing email simulation · interpreting simulation results

Commonwealth Bank — *Introduction to Cybersecurity Job Simulation* · Data analysis · incident response · security awareness · penetration testing

Datacom — *Cyber Security Operations Job Simulation* · Introduction to cyber security · cybersecurity risk assessment

AIG — *Shields Up: Cybersecurity Job Simulation* · Zero-day vulnerability response · technical ransomware task

Deloitte — *Data Analytics Job Simulation* · Data analysis · forensic technology

Coursera — *Getting Started with Microsoft Excel* · Online project certificate

Coursera — *Build a free website with WordPress* · Online project certificate

Praxware Technologies — *AI Professional Certification* · Grade A++ · Score 100%

SkillCourse — *30 Days Power BI Micro Course* · Power BI micro course

Praxware Technologies — *Generative AI Webinar* · One-day webinar on Generative AI

07 / EDUCATION

Master of Science in Information Technology (MSc IT)

Gandhinagar University, Gandhinagar, Gujarat, India

IN PROGRESS

Bachelor of Computer Applications (BCA)

Kadi, Gujarat, India

COMPLETED
